Original caption

yellow vintage car ipad mini cases

Type A — Spatial scene description

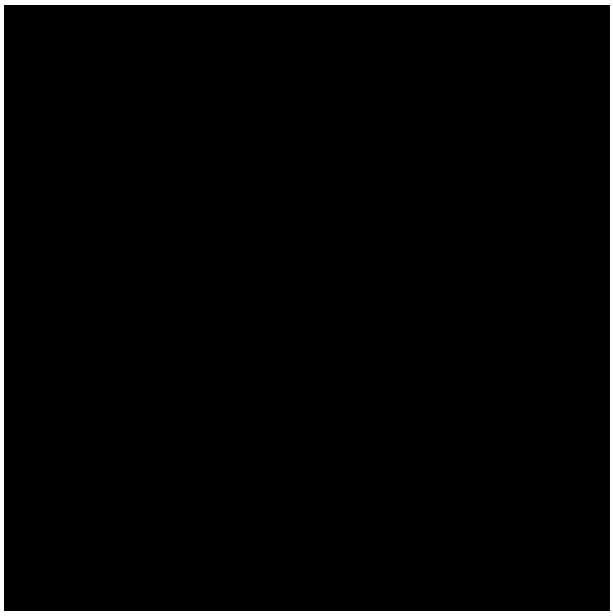
Based on the provided image, there are no visible objects, features, or spatial layout to describe. The image is entirely blank and white.

Type B — Object-centric referring

Based on the visual evidence provided, there are no distinct objects visible in the image. The image is completely white.

Type C — Action-conditioned

Scan complete. No objects are detected in the workspace. The area is completely clear, with no obstacles present. Grasping actions cannot be initiated as there are no targets. The entire surface area is available as a placement zone.



000002.jpg

Original caption

a sky with clouds women's v - neck

Type A — Spatial scene description

Based on the image provided, there are no visible objects, scene elements, or background details to describe. The image is completely black.

Type B — Object-centric referring

The provided image is completely black and contains no discernible objects, features, or elements to describe. Therefore, it is impossible to generate referring expressions or describe free space for any objects within the scene.

Type C — Action-conditioned

Scene scan complete. No objects or surfaces detected within the current field of view. All manipulation tasks are aborted due to lack of actionable targets. Obstacle assessment, grasp planning, and placement zone identification are not applicable.

000022.jpg

Original caption

led floodlight with diffusers

Type A — Spatial scene description

A single square LED floodlight fixture occupies the center of the frame against a plain white background. The fixture's main body is composed of a light gray base unit with prominent cooling fins extending around its perimeter. Attached to the bottom surface of the base is a translucent white diffuser cover, which slightly protrudes downwards. The entire object is presented from a slightly low-angle perspective, emphasizing both the textured surface of the diffuser and the side cooling fins of the base unit.

Type B — Object-centric referring

Object: LED floodlight fixture
Referring: The single, square-shaped LED floodlight fixture features a grey heatsink housing on top and a white, textured diffuser covering the light source below.
Free space: The entire light fixture is surrounded by empty white space.

Type C — Action-conditioned

Target object: LED floodlight fixture. The most stable grasp involves a side approach, engaging a parallel-jaw gripper with the external heatsink fins on the gray body of the unit. The translucent diffuser cover presents a large surface area but is less suitable for grasping. No nearby obstacles are present in the scene. The entire surrounding surface area serves as a clear placement zone.

000003.jpg

Original caption

the brain coffee mug

Type A — Spatial scene description

A large, white coffee mug occupies the near-center of the frame, positioned close-up against a plain white background. The mug's handle extends from its right side. On the front surface, a black and white graphic print features the text "THE BRAINS" in the upper portion, with a silhouette graphic of a person in a suit below it. A portion of the graphic design also wraps around to the far left side of the mug, where a small part of text or another figure is faintly visible.

Type B — Object-centric referring

Object: coffee mug
Referring: The large white coffee mug, centered in the image, has black text reading "THE BRAINS LEVERAGE" above a black silhouette of a man in a suit on its visible side, and a C-shaped handle on the right.
Free space: The mug is surrounded by clear white space, with the handle protruding into the free space on the right side.

Type C — Action-conditioned

Target object identified: "the brain coffee mug". For grasping, the primary approach is from the right side to utilize the handle. Alternatively, a top-down approach for a cylinder grasp on the main body is clear, specifically from the front where the graphic is located. There are no surrounding obstacles detected on the surface near the mug. The entire visible area around the mug constitutes a clear placement zone.

000026.jpg

Original caption

two silver bells with ribbons and ribbons

Type A — Spatial scene description

Two individual silver bells are displayed in the upper portion of the scene; one bell is located on the upper left, while the other identical bell is positioned on the upper right. Both bells feature heart-shaped handles and are adorned with white ribbons. A larger, clear plastic box containing multiple similar silver bells is centered in the lower half of the image, positioned directly beneath the two individual bells. The bells inside the box are arranged in several rows and columns.

Type B — Object-centric referring

Object: Silver Bell (Upper Left)
Referring: The single silver bell positioned in the upper left corner of the image, featuring a heart-shaped handle and a white tulle ribbon tied around its neck.
Free space: This bell is surrounded by clear white space, with significant free space below it separating it from the box.

Object: Silver Bell (Upper Right)
Referring: The single silver bell located in the upper right corner, mirroring the bell on the left, which also has a heart-shaped handle and white tulle ribbon.
Free space: Ample clear space surrounds this bell on all sides, particularly to its left and right, on the white background.

Object: Box of Bells
Referring: The clear plastic box positioned at the bottom of the image, containing multiple smaller silver bells arranged in two rows with a white label in the center.
Free space: The box occupies the lower portion of the image, with free space directly above it separating it from the two loose bells.

Type C — Action-conditioned

Robot Action Plan:

* **Target 1 (Left Bell):** Grasp the heart-shaped handle. Approach direction is from directly above to secure the loop. The soft white ribbon is a nearby potential obstacle to avoid contact with during the grasp.
* **Target 2 (Right Bell):** Grasp the heart-shaped handle. Approach direction is from directly above to secure the loop. The soft white ribbon near the handle is a potential obstacle.

* **Target 3 (Box of Bells):** Grasp from the side or top surface. The box is stable and offers clear surfaces for grasping.
* **Placement Zone:** The surrounding flat white surface provides ample clear space for object placement, ensuring separation from other items.

000015.jpg

Original caption

the pendleton blazer with button

Type B — Object-centric referring

Object: Button
Referring: The single dark brown, round button located in the center-left area of the image.
Free space: The button is surrounded by the striped, textured fabric of the blazer.

Object: Blazer fabric
Referring: The textured fabric with multi-colored horizontal stripes (including shades of yellow-green, white, and brown) that serves as the background for the button.
Free space: The fabric fills the entire frame, with no free space visible around its edges.

Type C — Action-conditioned

Target object for manipulation is the round button on the blazer. The optimal approach direction for grasping or pressing this button is vertical (top-down), perpendicular to the fabric surface. Obstacles for a side approach include the closely surrounding, textured fabric of the blazer. The clearest placement zone on the surface for another small object would be the relatively flat area of fabric immediately to the right of the button.

000018.jpg

Original caption

rustic wood and leather address business card

Type A — Spatial scene description

A single rectangular address card dominates the center of the image, positioned directly over a textured background. The card has a light, parchment-like appearance with irregular, torn edges, giving it an aged look. Centered on the card is black, distressed text including "JOHN Q PUBLIC," a phone number, and an address. Four dark, circular objects resembling rivets or tacks are visible near the top left, top right, bottom left, and bottom right corners of the card, securing it to the underlying surface. The background consists of a rustic, grayish-brown wood grain texture with horizontal lines, which extends completely around the perimeter of the central card.

Type B — Object-centric referring

Object: Business Card
Referring: The centrally located, light-colored rectangular object with frayed edges and text, designed to resemble a piece of aged parchment attached to wood.
Free space: The area immediately surrounding the business card is a rustic, wood-textured surface.

000010.jpg

Original caption

a maroon jumper that has a small patch in the front and long sleeves in the back

Type A — Spatial scene description

Based on the image, a maroon, long-sleeved jumper is positioned centrally in the frame, hanging from a wooden clothes hanger. The hanger's structure is visible at the top, supporting the shoulder area of the jumper. The jumper's sleeves extend outwards to the left and right sides of the frame. A small pocket is located on the upper right quadrant of the jumper's front side. The garment, along with the hanger, is presented against a plain white background.

Type B — Object-centric referring

Object: Maroon jumper
Referring: The maroon long-sleeved jumper located in the center of the image, which has a wide boat neckline and a small pocket on its right chest area.
Free space: There is a clear white background surrounding the jumper on all sides, providing open space for grasping.

Object: Wooden hanger
Referring: The wooden hanger at the top of the image supporting the maroon jumper.
Free space: Clear space is available above the hanger and between the hanger and the neckline of the jumper.

Type C — Action-conditioned

I am analyzing the scene for manipulation. The primary target is the maroon jumper, suspended by a wooden hanger. To grasp the jumper itself, a frontal approach to the main body or sleeves is optimal. The primary obstacle for removing the garment is the wooden hanger, which must be navigated around or released from. To grasp the hanger, a side approach to the wooden crossbar is necessary, but the jumper partially obstructs this target area. The clearest placement zone for either item would be a flat surface directly below the current hanging position.

000006.jpg

Original caption

the blue sedan is parked on a street

Type A — Spatial scene description

A bright blue sedan dominates the foreground and center of the scene, angled towards the left side of the frame. Directly behind the blue sedan, slightly offset to the left, is a silver SUV positioned in the midground. In the far distance, behind both vehicles and to the right, a red car is partially visible. All three vehicles are parked on an asphalt street in front of a light-colored building that fills the background. A concrete curb or sidewalk runs along the right edge of the street, parallel to the blue sedan.

Type B — Object-centric referring

Object: blue sedan
Referring: The bright blue car in the foreground is the closest and most prominent object in the image.
Free space: The car is parked on an asphalt street with open space surrounding it on the left and front sides, and a concrete sidewalk to its right.

Object: silver SUV
Referring: The silver SUV is parked directly behind the blue sedan on the left side of the image.
Free space: The area immediately in front of the silver SUV is occupied by the rear of the blue sedan, and it is parked near a building wall.

Object: red car
Referring: The red car is partially visible in the far background on the right side of the image.
Free space: This car is positioned behind the blue sedan and appears to be parked on the street next to a building.

Type C — Action-conditioned

Target object identification: The primary target is the blue sedan. The secondary obstacle vehicle is the silver SUV parked behind it.

Grasping/Interaction approach: For interacting with the blue sedan's hood or front side panel, a lateral approach from the open street side (viewer's left) provides the safest trajectory. A downward approach from above is also clear.

Obstacles: The silver SUV directly behind the blue sedan restricts rearward movement and approach to the blue sedan's back end.

Placement zone: The asphalt surface directly in front of the blue sedan, away from the curb, offers the clearest placement area, free from nearby obstacles.

000016.jpg

Original caption

custom seat covers sued for chevrolet c350

Type A — Spatial scene description

Based on the image, the scene displays a pair of black automotive seats arranged side-by-side against a neutral white background. The left seat is positioned on the left side of the frame, and the right seat is positioned on the right side. A center console or armrest unit is situated between the lower sections of both seats. This console, which features cup holders on its top surface, effectively fills the space separating the two seats, creating a unified seating arrangement. The seats themselves consist of a base cushion, a backrest, and a headrest, all covered in matching black fabric. The metal mounting bases of both seats are visible at the bottom, suggesting they are mounted on a flat surface.

Type B — Object-centric referring

Object: Left Seat
Referring: The single black seat located on the left side of the image.
Free space: The free space around the left seat is clear on all sides, with open space immediately to its left and behind it.

Object: Right Seat
Referring: The black car seat located on the right side of the image.
Free space: The area to the right side of the seat and behind the headrest is open.

Object: Center Console
Referring: The black console with cup holders positioned between the left and right seats.
Free space: The top surface of the console is open, while its sides are enclosed by the adjacent seats.

Type C — Action-conditioned

The scene presents a configuration of two main seats and a central console/jump seat. To grasp the driver's seat (left) or passenger seat (right), the optimal approach direction for a stable grasp on the structure or headrest cover is from above and slightly behind, ensuring clearance from the adjacent center console. The central console itself requires a direct top-down approach to navigate between the larger surrounding seats. The clearest placement zone on the surface is the open space directly in front of or behind the entire assembly.

000029.jpg

Original caption

a blue electronic calculator

Type A — Spatial scene description

A single blue electronic calculator occupies the center of the frame, positioned diagonally with its top section towards the upper left and its bottom towards the lower right. The calculator features a digital display screen at the top and multiple rows of rectangular buttons arranged in a grid below the screen. The entire object rests against a plain white background, which fills the surrounding area of the image.

Type B — Object-centric referring

Object: blue electronic calculator
Referring: The blue electronic calculator with a digital display showing "1234567890.E" and multiple rows of dark blue buttons, positioned diagonally in the center of the image.
Free space: The calculator is surrounded on all sides by a plain white background, providing ample free space around the object.

Type C — Action-conditioned

Based on visual analysis, the primary target object is the blue electronic calculator. The optimal approach direction for grasping is top-down, allowing a parallel gripper to secure the long edges. There are no obstacles present in the immediate vicinity of the calculator. The surrounding white surface provides a completely clear placement zone for repositioning the object.

000021.jpg

Original caption

an aqua and gold lamp sitting in a room

Type A — Spatial scene description

A vintage aqua and gold lamp stands in the center of a white window sill, positioned directly in front of a brightly lit window. The lamp features an aqua-colored base with gold detailing and a matching cylindrical shade with a subtle diamond pattern. To the left of the lamp, also on the window sill, are two small bottle-brush Christmas tree decorations. To the right of the lamp, a large, light-colored ceramic jar with a brown-rimmed top rests on the window sill. A green artificial garland is draped across the top of the window frame, situated above the lamp and decorations. A large red object with colorful designs is partially visible in the bottom-left corner, located below the window sill. A power cord extends from the back of the lamp base down towards the lower-left area.

Type B — Object-centric referring

Object: Lamp
Referring: The aqua-colored lamp with gold accents and a cylindrical shade sits in the center of the window sill.
Free space: There is free space on the sill on either side of the lamp's base, separating it from other objects.

Object: Miniature Trees
Referring: The two small, glittery bottle brush trees are positioned on the left side of the window sill next to a small glass object.
Free space: The trees are close together on the sill with a small amount of space around them.

Object: Large Container
Referring: The large, cream-colored container with a brown rim is located on the window sill to the right of the lamp.
Free space: There is space on the sill between the container and the lamp to its left.

Object: Garland
Referring: The green artificial pine garland is draped across the top frame of the window.
Free space: The garland hangs above the window and objects on the sill, with clear air space beneath it.

Object: Red Chair

Referring: The bright red chair with a multi-colored pattern is partially visible in the bottom-left corner below the window sill.
Free space: There is open space around the chair on the floor in front of the window sill.

Type C — Action-conditioned

Target: Aqua and gold lamp.
Approach: Grasp the stable central body of the lamp from the front or left side. The narrow neck below the shade is also an option, but the body offers greater stability.
Obstacles: The large pot to the right blocks access from that side. To the left, several small decorative items require careful maneuvering. The garland above requires adequate vertical clearance for lifting.
Placement Zone: The clearest available surface area on the window sill is immediately to the left of the lamp, provided the small decorative items are cleared or avoided.

000030.jpg

Original caption

mens sued shoes with velcro strap

Type A — Spatial scene description

A single dark blue suede shoe is positioned centrally in the frame, angled to present a three-quarter view. The shoe's upper part features two parallel velcro straps across the instep, with the upper strap positioned closer to the heel and the lower strap closer to the toe. The dark blue upper sits directly on top of a contrasting thick black sole that extends along the entire bottom perimeter. Small perforations are visible on the side panel near the toe area, while a logo is located on the tongue beneath the straps. The shoe itself is isolated against a plain white background.

Type B — Object-centric referring

Object: Shoe
Referring: The single dark blue suede shoe with two black velcro straps is positioned centrally in the image, shown from a three-quarter angle with the toe pointing to the right.
Free space: The shoe is surrounded by clear white space, with no other objects touching it.

Type C — Action-conditioned

Target object identified: blue suede shoe. Optimal approach for grasping is top-down onto the main body, targeting the area around the tongue and Velcro straps for a stable hold. No nearby obstacles are present. The clear, flat white background provides an unrestricted placement zone.

000001.jpg

Original caption

the view of an aerial pool with palm trees

Type A — Spatial scene description

From an elevated viewpoint, the scene depicts a multi-level resort complex built on a hillside overlooking a large body of water. A multi-story building occupies the left side of the image, with several palm trees located in front of it and on the adjacent hillside. The foreground features a large swimming pool complex with multiple sections and surrounding decks. On these decks, white lounge chairs with umbrellas are arranged near the pool edge, and a dining area with a table and chairs is visible in the bottom-right corner. An elevated terrace, or smaller upper pool deck, is situated between the building and the main pool area, with two people standing on it. The complex overlooks a narrow shoreline and a large body of water on the right side, with distant hills or islands visible on the far horizon. People are scattered across different parts of the resort, including on the upper terrace, near the lower deck seating, and at the foreground dining table.

Type B — Object-centric referring

Object: Building
Referring: The large, multi-story building located on the upper left side of the image, featuring modern architecture and multiple balconies.
Free space: The building is integrated into the hillside, with lush green foliage surrounding its base and an open deck area in front.

Object: Upper Level Pool
Referring: The narrow, rectangular infinity pool situated on the raised deck directly below the main building.
Free space: The pool's surface is clear, with a small deck area around its edges where people are standing near the left side.

Object: Main Swimming Pool
Referring: The large, irregularly shaped turquoise swimming pool located in the lower-middle portion of the scene.
Free space: The pool is surrounded by a tiled patio area containing sun loungers, umbrellas, and potted plants.

Object: Palm Tree Cluster
Referring: The group of tall palm trees standing prominently in the center of the image, positioned

between the pool area and the ocean.
Free space: The base of the trees is surrounded by other low-lying foliage and open ground leading to the beach area.

Object: Sun Loungers
Referring: The cluster of white lounge chairs arranged along the edge of the large swimming pool on the right side.
Free space: The loungers are placed on the tiled patio, with open space around them for access to the pool.

Object: Outdoor Dining Area
Referring: The table and chairs set up in the bottom right foreground on a wooden deck.
Free space: The dining area is on a platform overlooking the ocean, surrounded by low vegetation and open space.

Object: Ocean/Bay
Referring: The expansive blue body of water that stretches across the right side and background of the image.
Free space: The ocean's surface is open, with distant islands visible on the horizon.

Object: Distant Islands
Referring: The green, hilly landmasses visible in the far distance across the water on the right side of the image.
Free space: These islands are separated from the foreground by a large body of open water.

000009.jpg

Original caption

a model wears an elaborate creation of white paper at the berlin fashion week on march 5, 2009 in

Type A — Spatial scene description

The central figure in the image is a person (model) positioned in the foreground and center, wearing an elaborate white costume. The model's head is adorned with a large, intricate white headpiece that includes elements resembling a ship and long, hanging white strands. A silver mask covers the upper half of the model's face below the headpiece. The model wears a metallic silver top with pointed features on the torso and a voluminous white skirt covering the lower body. White, fluffy cuffs are visible on both wrists. The immediate background is dark and out of focus, suggesting a staged setting with focused lighting on the model. In the distant background to the right, faint, blurry figures, possibly an audience, can be partially seen.

Type B — Object-centric referring

Object: Person
Referring: The person modeling the elaborate white and silver costume, located in the center of the image.
Free space: There is significant free space around the person on all sides, primarily occupied by the dark background of the runway or stage.

Object: Headdress
Referring: The complex white headpiece worn by the person, featuring long tendrils and a structure resembling a sailing ship on top.
Free space: The headdress extends upwards and outwards from the person's head, with ample free space separating its upper structure from the top edge of the frame and its sides from the dark background.

Object: Bodice (Top)
Referring: The silver, sleeveless top worn by the model, characterized by pointed elements resembling spikes on the chest and waistline.
Free space: The bodice fits closely to the person's torso, with free space visible along the arm openings and below the waist where it meets the skirt.

Object: Skirt
Referring: The voluminous white skirt with vertical pleats that flares outwards from the person's waist, covering their lower body.

Free space: The skirt expands widely, taking up a large portion of the lower frame, with free space surrounding its lower edge before it extends out of view.

Object: Mask
Referring: The silver, metallic mask covering the person's eyes, situated between the forehead and nose.
Free space: The mask sits directly on the person's face, with minimal free space around its edges, primarily bounded by the surrounding facial features and hair.

Object: Gloves/Cuffs
Referring: One of the two white, fluffy cuffs worn around the person's wrists.
Free space: The cuff encircles the model's wrist, with free space immediately surrounding it on the arm and against the dark background.

Type C — Action-conditioned

Manipulation Plan: Costume Disassembly

My primary target for interaction is the elaborate headpiece, which appears fragile and composed of multiple delicate elements, including dangling tassels and rigid ship-like structures. The optimal approach for removal would be a careful, top-down grasp centered on the main hull structure to minimize interference with the protruding masts and loose decorative elements. A secondary target, the silver torso garment, presents sharp protrusions as significant obstacles; manipulation requires a side approach focused on the flatter areas of the fabric between the spikes. The entire costume is highly complex and requires gentle handling to avoid damage. The clearest placement zone for removed items is currently off-camera; a designated clear surface to the side of the model would be required for safe item transfer.

000011.jpg

Original caption

two male basketball players sit in the middle of a crowd

Type A — Spatial scene description

Based on the image, a large crowd of spectators fills the background, seated in steeply rising rows of stadium seating. In the foreground, a group of people is visible on or near a basketball court sideline. On the far left, a man in a light blue shirt sits facing to the right. In the center foreground, a man in a black hoodie stands with his back largely to the viewer, positioned to the right of the sitting man. To the right of the standing man and slightly further back in the mid-ground, a row of seated basketball players and team staff occupies a bench. The players wear blue and white uniforms; a central figure among them has a white towel draped around his neck. Another basketball player in a green jersey sits on the floor near the standing man's right side. A large white towel with a logo is draped across the laps of the players on the right side of the bench. The crowd extends far behind these foreground figures, encompassing the majority of the image frame from mid-distance to the far background.

Type B — Object-centric referring

Object: Man in black hoodie
Referring: The standing man in the center-left foreground wearing a black hoodie and blue jeans, with his back mostly turned to the camera.
Free space: He is standing between a seated spectator on his left and a group of basketball players on his right.

Object: Seated man in light blue shirt
Referring: The man seated on the far left edge of the frame, wearing a light blue button-up shirt and blue jeans.
Free space: He is seated next to a standing man on his right, with clear space in front of his legs and feet.

Object: Basketball player in green jersey
Referring: The basketball player lying on the floor in the foreground, wearing a green jersey with the number '4'.
Free space: He is on the floor in front of the players' bench, next to a stack of white folded items.

Object: Basketball player with beard (central)
Referring: The basketball player with a prominent beard seated centrally on the bench, wearing a white towel over his shoulders.

Free space: He is sitting closely between two teammates on the bench, with the floor in front of him and spectators behind him.

Object: Basketball player to right of central player
Referring: The basketball player seated immediately to the right of the central player with the beard, also wearing a white towel around his neck.
Free space: He is sitting closely between two teammates on the bench, with the floor in front of him and spectators behind him.

Object: Group of basketball players (right side)
Referring: The group of basketball players seated together on the right side of the bench, partially obscured by a white towel.
Free space: They are sitting closely together on the bench, with a large white towel covering their laps and legs.

Object: Spectator crowd
Referring: The large, densely packed crowd of spectators filling the tiered stadium seats in the background.
Free space: The crowd is closely seated in rows, with minimal free space between individuals.

Type C — Action-conditioned

Observing potential targets on the immediate surface in front of the seated figures. The primary target is the plastic cup held by the figure on the far left. The approach direction requires a careful vertical trajectory to avoid collision with the figure's hand and arm. A secondary target is the stack of white items on the floor near the player in the green jersey. The approach path for this target must be angled from the right side to clear the player's left leg, which acts as the primary obstacle. The clearest placement zone for either item, if retrieved, is the open blue court surface directly in front of the bench.

000019.jpg

Original caption

rihanna walks into the airport with her family

Type B — Object-centric referring

Object: Man in light blue shirt
Referring: The bald man on the far left wearing a light blue button-down shirt and looking toward the right.
Free space: There is free space to his immediate left and slightly behind him, near the glass window frame.

Object: Man in grey hoodie (left side)
Referring: The bald man in the grey hoodie positioned directly behind the central figure in black.
Free space: He is tightly surrounded by other people in the cluster, with minimal free space around his head and shoulders.

Object: Central figure
Referring: The young man in the center of the group wearing a black hoodie with a white zipper and a black baseball cap.
Free space: He is closely surrounded by several other individuals, leaving almost no free space directly adjacent to him.

Object: Man in background
Referring: The man in the background with short dark hair, partially visible between the two bald men in grey hoodies.
Free space: He is deep within the group and surrounded by other people; there is no visible free space immediately around him.

Object: Man with red backpack
Referring: The man on the far right side wearing a grey hoodie and black baseball cap, holding the bright red backpack.
Free space: There is free space behind him and to his right, near the glass door frame.

Object: Red backpack
Referring: The bright red backpack being held by the man on the right side of the group.
Free space: The backpack hangs in front of free space between the man and the glass door frame.

Type C — Action-conditioned

Target object identified: red backpack. Optimal grasping approach targets the top handle, requiring an approach vector from the right side or above to avoid collision with the holder's arm and body. Obstacles are significant; high density of human subjects in close proximity to the target creates a high risk of contact. The clearest placement zone on a stable surface is the floor area to the far right, away from the immediate crowd movement pathway.

000033.jpg

Original caption

an image of a women's black leather watch with a white dial and crystals

Type A — Spatial scene description

The central object in the image is a black leather watch with a silver metal case and a white dial, positioned prominently in the foreground. The watch face, embellished with crystals, is located slightly left of the image's center. The black leather watch band extends from the top of the case towards the right side of the frame, forming a curve that wraps around to the bottom right. In the background to the left, a brown object, possibly a notebook or portfolio, is visible behind the watch face and appears out of focus due to the shallow depth of field. To the upper right of the watch, another out-of-focus object, potentially metallic, is partially visible. All items rest on a light brown wooden surface.

Type C — Action-conditioned

My primary target is the watch. The watch is mounted on a curved display stand, which acts as the main obstacle to a top-down grasp of the face. The optimal approach direction is lateral, targeting the watch case from the side to secure a stable grip and lift it clear of the stand. The clearest placement zone is the open wooden surface immediately in front of the current position.

000034.jpg

Original caption

a white sofa is next to a glass table

Type A — Spatial scene description

In the foreground on the left, a large, dark circular rug occupies a portion of the floor space. Resting partially on top of the rug and in the center-left position is a white daybed, covered with a white throw blanket and featuring an open book on its surface. At the head of this daybed are two pillows, one grey and one white. Directly behind this daybed and slightly to its right sits a second white daybed, which has a grey bed runner and forms the backrest for the configuration. To the immediate right of the daybeds stands a white side table. On the table, a clear glass vase holds several orange tulips, positioned next to a stack of books and a smaller, dark item. The background is simple and bright, suggesting a white wall or large window.

Type B — Object-centric referring

Object: Front Sofa Section
Referring: The white sofa section positioned in the foreground of the image, which has an open book resting on its surface.
Free space: There is open floor space in front of the sofa section and to its left side.

Object: Back Sofa Section
Referring: The white sofa section with a high backrest, located behind the front sofa section.
Free space: It is situated closely behind the front sofa section and next to the white side table on its right.

Object: Side Table
Referring: The white table on the right side of the image, next to the back sofa section.
Free space: There is clear floor space in front of the table and to its right.

Object: Vase with Flowers
Referring: The transparent glass vase containing orange flowers, placed on the right side of the white side table.
Free space: The vase rests on the surface of the side table, with a stack of books immediately to its left.

Object: Stack of Books on Table
Referring: The stack of colorful books located on the white side table next to the glass vase.

Free space: The books are positioned on the table surface, with free space immediately around them.

Object: Open Book on Sofa
Referring: The open book lying on the surface of the front sofa section.
Free space: The book is surrounded by a large area of white bedding.

Object: Circular Rug
Referring: The large, dark gray circular rug covering the floor in the foreground, below the front sofa section.
Free space: The rug is surrounded by the white floor area.

Object: Gray Pillow (Front Sofa)
Referring: The dark gray pillow located on the front sofa section.
Free space: It rests against the head of the sofa, with a white pillow next to it.

Object: White Pillow (Front Sofa)
Referring: The white pillow located on the front sofa section, next to the gray pillow.
Free space: It rests against the head of the sofa, with the gray pillow to its left.

Object: Gray Pillow (Back Sofa)
Referring: The dark gray pillow located on the back sofa section.
Free space: It rests against the high backrest of the sofa, with a white pillow next to it.

Object: White Pillow (Back Sofa)
Referring: The white pillow located on the back sofa section, next to the gray pillow.
Free space: It rests against the high backrest of the sofa, with the gray pillow to its left.
