Original caption

rustic wood and leather address business card

Scene graph

SCENE GRAPH (7 objects detected):
1. sign [center-far] conf=0.42 depth=0.805 depth_rank=1 area_rank=7
   Clear space below of the sign.
2. sign [center-far] conf=0.46 depth=0.819 depth_rank=4 area_rank=4
   Limited clear space immediately around the sign.
3. plaque sign [center-far] conf=0.36 depth=0.819 depth_rank=5 area_rank=1
   Limited clear space immediately around the plaque sign.
4. plaque [center-far] conf=0.38 depth=0.819 depth_rank=6 area_rank=2
   Limited clear space immediately around the plaque.
5. sign sign [center-far] conf=0.36 depth=0.819 depth_rank=3 area_rank=5
   Limited clear space immediately around the sign sign.
6. sign [center-far] conf=0.35 depth=0.805 depth_rank=2 area_rank=6
   Limited clear space immediately around the sign.
7. sign [center-far] conf=0.32 depth=0.819 depth_rank=7 area_rank=3
   Limited clear space immediately around the sign.

Scene Type A — Grounded spatial description

The image features a rectangular plaque sign with text on a rustic wood background, occupying the central area at a farther distance. The plaque, identified multiple times in the scene graph as various signs (objects 1-7), is centrally positioned. There is no significant clear space below or around the sign, contrary to some indications of clear space. The text on the plaque includes contact details like a name, phone number, address, and a placeholder for additional information. All instances labeled in the scene graph refer to the same central object, with incorrect suggestions of limited clear space surrounding it. Despite the multiple detections, these entries all describe the same central plaque sign.

Scene Type C — Grounded action caption

As a robot arm preparing to interact with the scene, the primary focus is on the sign at the center-far position with multiple detected layers. The depth analysis reveals that object 1, with the greatest depth rank, offers clear space below, making it the most accessible for grasping from the bottom. Approaching this sign from underneath will minimize interference from other overlapping signs. The other detected layers, all sharing similar depth of 0.819, present limited clear space around them. Priority should be given to object 1 for first interaction due to its optimal depth ranking, while also noting that objects 2 through 7 present potential obstacles that slightly vary in their limited spaces

immediately around them. The clearest placement zone is found beneath object 1, where there is the most clear space indicated, providing an efficient location for subsequent positioning tasks.

000026.jpg

Original caption

two silver bells with ribbons and ribbons

Scene graph

SCENE GRAPH (4 objects detected):
1. package [center-near] conf=0.69 depth=0.319 depth_rank=1 area_rank=1
   Limited clear space immediately around the package.
2. heart silver [right-mid] conf=0.31 depth=0.553 depth_rank=3 area_rank=3
   Limited clear space immediately around the heart silver.
3. shape [right-mid] conf=0.32 depth=0.553 depth_rank=4 area_rank=2
   Limited clear space immediately around the shape.
4. silver [left-mid] conf=0.35 depth=0.547 depth_rank=2 area_rank=4
   Limited clear space immediately around the silver.

Scene Type A — Grounded spatial description

The image features a scene with a centrally positioned package [center-near] containing multiple silver bells, surrounded by limited clear space. Above the package, there are two distinct objects. On the left side, there is a silver bell [left-mid] with a heart-shaped handle and a ribbon, appearing slightly further away compared to its counterpart and having limited space around it. On the right side, another silver bell is identified as "heart silver" [right-mid], which seems to be identical to the left bell and equally limited in clear space. Both bells are at similar depths, with the left bell positioned slightly closer to the center than the right one.

Scene Type B — Grounded referring expressions

Object: package
Referring: The package is positioned at the center-near area of the image and is the largest object present.
Free space: There is limited clear space immediately around the package.

Object: heart silver
Referring: The heart-shaped object is on the right-mid area of the image with a silver color and is positioned midway in depth.
Free space: There is limited clear space immediately around the heart-shaped object.

Object: shape
Referring: The shape is located in the right-mid area, next to the heart silver, and shares similar depth and spatial position.

Free space: There is limited clear space immediately around the shape.

Object: silver
Referring: The silver object is on the left-mid side of the image and is slightly less deep than the heart silver on the right.
Free space: There is limited clear space immediately around the silver object.

Scene Type C — Grounded action caption

As a robot arm about to interact with this scene, my first target is the package, positioned center-near with the lowest depth and highest area rank, indicating it's the most accessible. I will approach the package from above, minimizing interference with nearby objects. The heart-shaped silver objects are located right-mid with depths deeper than the package, so they require careful navigation around the package. Their position suggests an approach from either side, avoiding contact with other objects at similar depths. The shape and silver objects have similar depths and positions, making spatial awareness crucial. The clearest placement zone is directly above where the package currently resides, as it had the most immediately accessible space initially.

mens sued shoes with velcro strap

Scene graph

SCENE GRAPH (1 objects detected):
1. shoe [center-near] conf=0.72 depth=0.312 depth_rank=1 area_rank=1
   Limited clear space immediately around the shoe.

Scene Type A — Grounded spatial description

The image shows a blue suede shoe with a black sole, marked with a confidence of 0.72 and positioned in the center-near of the frame. The shoe features two Velcro straps across its upper part and appears to take up most of the visible space, as indicated by its area rank of 1. There is limited clear space immediately surrounding the shoe, confirming that it is the primary focus of the image. The depth is listed as 0.312, with a depth rank of 1, suggesting that this shoe is the closest object and is not obstructed by other items.

Scene Type C — Grounded action caption

I'm ready to interact with the shoe, which is positioned center-near with a confidence of 0.72. The optimal approach direction for grasping the shoe is from above, as this will provide a secure grip on the velcro strap. The depth of 0.312 suggests limited clear space around the shoe, indicating there are minimal obstacles in the immediate vicinity. With the shoe having the highest depth and area ranks, it is the primary focus, with no nearby obstacles to interfere with the grasping process. The clearest placement zone will directly correspond to the original position, allowing for efficient manipulation and handling.

Object: Living Room Room
Referring: The room setup image on the right side, mid-depth.
Free space: Clear space below the living room room.

Object: Photo Frame
Referring: The smaller photo frame on the left side, near position.
Free space: Limited clear space immediately around the photo frame.

Scene Type C — Grounded action caption

As a robot arm preparing to engage with this decor scene, my first target, the curtain on the left (depth_rank=10), requires a careful approach from the side due to limited space around it. The dresser (depth_rank=1) in the same area also offers limited clearance for maneuvering, necessitating a side approach for grasping. Moving to the picture frames (depth_ranks=3, 5, 11), accessing them straightforwardly from above is feasible, but attention is needed to avoid the nearby obstacles, like other frames and furniture (depth_rank=6). The pillow on the right mid-section (depth_rank=14) has clear space on its right, offering a suitable zone for placement post-retrieval. The clearest workspace is around the carpet in the center (depth_rank=2), providing ample room to place or manipulate objects without interference. My actions will prioritize these considerations to interact efficiently and safely within the scene.

Original caption

a maroon jumper that has a small patch in the front and long sleeves in the back

Scene graph

SCENE GRAPH (4 objects detected):
1. hang hanger [center-mid] conf=0.54 depth=0.371 depth_rank=4 area_rank=4
   Clear space right of the hang hanger.
2. blouse sweater sweatshirt [center-near] conf=0.40 depth=0.192 depth_rank=3 area_rank=3
   Limited clear space immediately around the blouse sweater sweatshirt.
3. blouse sweater sweatshirt [center-near] conf=0.38 depth=0.192 depth_rank=1 area_rank=1
   Limited clear space immediately around the blouse sweater sweatshirt.
4. blouse shirt [center-near] conf=0.32 depth=0.192 depth_rank=2 area_rank=2
   Limited clear space immediately around the blouse shirt.

Scene Type A — Grounded spatial description

The image features a maroon jumper with a front pocket, displayed on a wooden hanger. The hanger (1) is positioned centrally at the top, holding the jumper in place. The jumper is misidentified in the scene graph as having three separate object entries (2, 3, and 4), but it is a single item. The jumper's sleeves hang down on either side, creating a balanced, symmetrical look. There is no clear space around the jumper due to its size and positioning on the hanger. The pocket is visible on the front right side of the jumper.

Scene Type C — Grounded action caption

From the depth and position data provided, I, the robot arm, will approach the scene with precision for successful manipulation. The hanger, located at the center-mid position and ranked fourth in depth, is the initial target for a secure grasp. Its elevated position and center alignment offer a straightforward approach from above, ensuring a firm hold without encountering any significant obstacles.

The maroon jumper, interchangeable in identification as a blouse, sweater, or shirt, is positioned at the center-near area. Its depth rank suggests proximity to the hanger, with ample space around it for careful engagement. I will prioritize lifting the garment by the shoulder area or from its structure to prevent dropping, using a lateral movement to avoid the hanger's presence.

For placement, the clearest zone exists slightly to the right of the hanger's main axis. This area allows unobstructed space, enabling the smooth laying down or hanging of the item, ensuring it remains pristine and ready for the next task.

7. floor [right-far] conf=0.36 depth=0.699 depth_rank=6 area_rank=9
   Clear space above of the floor.
8. player man [center-near] conf=0.32 depth=0.192 depth_rank=1 area_rank=8
   Limited clear space immediately around the player man.
9. player [left-mid] conf=0.33 depth=0.552 depth_rank=2 area_rank=7
   Limited clear space immediately around the player.

Scene Type C — Grounded action caption

As a robot arm tasked with interacting in this basketball scene, I will strategically approach the player man located at center-near, with his depth being the shallowest at 0.192, indicating he's closest to my position. Given the limited clear space around him, precision is key. The left-mid basketball player and coach, though deeper at 0.552 and 0.618 respectively, pose potential obstacles due to their proximity. My approach to the player man will be from overhead to avoid these obstructions. Meanwhile, the floor on the right-far offers the clearest placement zone due to its unobstructed space above. Careful navigation around the crowd and basketball team in the far center will maximize safety and efficiency in this interaction.

4. person [center-mid] conf=0.49 depth=0.455 depth_rank=6 area_rank=14
   Clear space left, right, above of the person.
5. person [right-near] conf=0.58 depth=0.033 depth_rank=1 area_rank=6
   Clear space above of the person.
6. person [right-mid] conf=0.51 depth=0.633 depth_rank=13 area_rank=13
   Clear space above of the person.
7. person [right-mid] conf=0.65 depth=0.452 depth_rank=4 area_rank=7
   Limited clear space immediately around the person.
8. person [right-far] conf=0.46 depth=0.686 depth_rank=14 area_rank=16
   Clear space above of the person.
9. person [left-mid] conf=0.45 depth=0.451 depth_rank=3 area_rank=8
   Limited clear space immediately around the person.
10. person [left-mid] conf=0.46 depth=0.524 depth_rank=9 area_rank=10
   Limited clear space immediately around the person.
11. person [left-mid] conf=0.47 depth=0.518 depth_rank=8 area_rank=11
   Clear space below of the person.
12. person [left-near] conf=0.51 depth=0.290 depth_rank=2 area_rank=9
   Clear space above of the person.
13. pool [center-mid] conf=0.68 depth=0.491 depth_rank=7 area_rank=5
   Limited clear space immediately around the pool.
14. person [left-mid] conf=0.37 depth=0.453 depth_rank=5 area_rank=12
   Clear space above of the person.
15. person [left-mid] conf=0.31 depth=0.629 depth_rank=12 area_rank=17
   Clear space left, right, above, below of the person.
16. hotel resort [left-mid] conf=0.35 depth=0.571 depth_rank=10 area_rank=1

Limited clear space immediately around the hotel resort.

17. resort [left-far] conf=0.35 depth=0.748 depth_rank=15 area_rank=2
    Limited clear space immediately around the resort.

Scene Type A — Grounded spatial description

The scene depicts a picturesque view with a central pool surrounded by palm trees, positioned center-mid with limited clear space around it. To the left-mid, there's a hotel and a resort at a far distance, both with limited space around them. A person stands left-near, with clear space above, while multiple people are spaced across the mid-left to right regions, some with limited and others with clear space above or around them. To the right, the sea is visible in the far distance with clear space above. The landscape is lush, and the scene is lively, with people situated at various depths, ranging from near to far, with some closer to the hotel and others by the pool.

Scene Type C — Grounded action caption

As a robot arm, my task is to identify optimal grasping opportunities in this luxurious resort scene. The pool, centrally located with a medium depth rank of 7, offers limited clear space, making a vertical approach from above the best strategy to avoid nearby people. The left-far hotel and resort structures (depth ranks 16 and 15) have limited clear space, requiring careful maneuvering from above if interaction is needed. People located at various depths, particularly those with clear space above them (e.g., depth rank 11 and 14), can be approached from the top without interference. For placement, the sea on the right-far side (depth rank 17) presents the clearest zone due to the open space above, avoiding physical obstructions. This strategic evaluation ensures efficient navigation and manipulation within the scene.

Scene graph

SCENE GRAPH (2 objects detected):
1. watch [center-near] conf=0.54 depth=0.176 depth_rank=1 area_rank=1
   Limited clear space immediately around the watch.
2. table [center-mid] conf=0.58 depth=0.571 depth_rank=2 area_rank=2
   Limited clear space immediately around the table.

Scene Type B — Grounded referring expressions

Object: watch
Referring: The watch is positioned near the center, featuring a white dial and surrounded by crystals, with a black leather strap.
Free space: There is limited clear space immediately surrounding the watch.

Object: table
Referring: The table is visible at mid-distance in the background, providing a textured wooden surface under the watch.
Free space: There is limited clear space immediately around the table.

SCENE GRAPH (13 objects detected):
1. vase [right-mid] conf=0.78 depth=0.420 depth_rank=6 area_rank=13
   Clear space below of the vase.
2. flower [right-mid] conf=0.65 depth=0.417 depth_rank=5 area_rank=8
   Limited clear space immediately around the flower.
3. bedroom room [center-far] conf=0.67 depth=0.859 depth_rank=12 area_rank=1
   Limited clear space immediately around the bedroom room.
4. pillow [left-mid] conf=0.46 depth=0.460 depth_rank=8 area_rank=9
   Limited clear space immediately around the pillow.
5. pillow [center-mid] conf=0.43 depth=0.666 depth_rank=11 area_rank=11
   Clear space right of the pillow.
6. carpet [left-near] conf=0.57 depth=0.131 depth_rank=1 area_rank=6
   Limited clear space immediately around the carpet.
7. side table nightstand [right-mid] conf=0.49 depth=0.395 depth_rank=4 area_rank=7
   Clear space below of the side table nightstand.
8. pillow [left-mid] conf=0.43 depth=0.661 depth_rank=10 area_rank=12
   Limited clear space immediately around the pillow.
9. bed [center-near] conf=0.37 depth=0.273 depth_rank=2 area_rank=3
   Limited clear space immediately around the bed.
10. pillow [left-mid] conf=0.43 depth=0.443 depth_rank=7 area_rank=10
   Clear space below of the pillow.
11. bedding blanket comfort linen [center-near] conf=0.31 depth=0.273 depth_rank=3 area_rank=4
   Limited clear space immediately around the bedding blanket comfort linen.
12. bed [center-mid] conf=0.58 depth=0.569 depth_rank=9 area_rank=5
   Limited clear space immediately around the bed.
13. room [center-far] conf=0.32 depth=0.859 depth_rank=13 area_rank=2
   Limited clear space immediately around the room.

Scene Type A — Grounded spatial description

In the image, a white sofa is positioned [center-mid] and is adjacent to a [right-mid] glass table. The glass table, identified as a side table nightstand, holds a vase with flowers, both located [right-mid], with clear space below the vase and limited space immediately around the flowers. Positioned

[center-near], the scene features twin beds with pillows on the left and center positions, surrounded by limited space, except a clear area beneath one of the pillows. Bedding is spread across the beds, noted as bedding blanket comfort linen [center-near], with limited space surrounding it. The room's carpet is placed [left-near], and also has limited space around it. Overall, the various room elements like the bedroom and room listed [center-far] have considerable depth and limited surrounding space. The identified objects, pillows and beds on the left and center positions, underscore the intimate and neatly organized layout of the interior space.

Scene Type C — Grounded action caption

From my position, I see multiple objects to interact with. The vase at depth 0.420 (rank 6) on the right-mid provides a clear approach from below. The flower near the vase (depth 0.417, rank 5) also has limited space around it, suggesting a careful vertical approach. The left-mid pillow (depth 0.460, rank 8) allows space below for easy grasping. The carpet in the left-near area (depth 0.131, rank 1) has limited space, so I must avoid pressing too deeply. The side table on the right (depth 0.395, rank 4) similarly allows a safer approach from below. There’s a bed and bedding in the center-near (depth 0.273, ranks 2 and 3) with limited space, indicating I should avoid any lateral movements nearby. The clearest placement zone seems to be below the vase on the right, where free space is more abundant. My actions must prioritize vertical approaches where space permits for optimal safety and efficiency.
